**NIKKI BARON AND WENDY
ST. LAURENT / MASTER BATH**

For their clients in Miami Beach, designers Nikki Baron and Wendy St. Laurent fashioned a bathroom that combines modern efficiency with old-world flourishes. Baron and St. Laurent embraced a subtle palette of cream and silver, which is evident in the ceramic tile details, the hand-painted damask wallcovering, and the metallic veins of the bathroom's marble walls. Elements such as the Venetian mirror, hammered matte nickel sink, and polished hardware all contribute to the old-style elegance of the room. As crisp as a tuxedo, the dark mahogany cabinetry contrasts starkly with the pale surroundings to bring the look of a bygone era vividly to life.
